

HELP CLEAR THE WAY WITH BIMZELX NAVIGATE™

BIMZELX Navigate is an end-to-end patient support program—reimagined and highly personalized—to support patients, healthcare providers, biologic coordinators, and office staff throughout the BIMZELX® (bimekizumab-bkzx) treatment journey.

CHOICE IN ONBOARDING

Enroll patients **your way** through your preferred workflow:

Fax a completed
Patient Enrollment Form to
1-844-NAVFAXX

ePrescribe

UCBNavigate.com Portal

Capturing patient consent is critical for fully onboarding patients in BIMZELX Navigate

Patients can provide consent using one of the following methods: Patient Enrollment Form, BIMZELX.com registration form, or text message.

ACCESS & AFFORDABILITY

BIMZELX Bridge

Patients pay just **\$15 per dose** for up to 2 years while insurance coverage is delayed or denied.*
Prior authorization is required prior to patient's second dose.†

BIMZELX Savings

Patients **pay only \$5** once insurance coverage is approved.*

Patient Assistance Program/UCBCares®

Eligible patients who are unable to pay for their BIMZELX prescription may receive medication at no cost. Contact UCBCares at 1-844-599-CARE (2273) to learn more.

*For eligible commercially insured patients only. Eligible patients may pay as little as \$15 per dose of BIMZELX® for up to two years or until the patient's commercial insurance plan approves coverage, whichever comes first. Eligible patients may then pay \$5 per dose. View complete eligibility requirements and terms at BIMZELXHCP.com.

†For eligible, commercially insured patients.

ADHERENCE

Nurse Navigators‡

As a complimentary support feature of BIMZELX Navigate, Nurse Navigators are registered nurses who:

- Are your patient's single point of contact throughout the treatment journey
- Facilitate introductory 3-way calls with your patient and the Specialty Pharmacy
- Answer questions about insurance coverage status, shipment of drug, injection training support, and financial assistance options for eligible patients

‡Nurse Navigators do not provide medical advice and will refer patients to their healthcare professional for any treatment-related questions.
